

1. Incident Name Gold King Mine Incident Release	2. Operational Period (Date/Time) From: 05SEP15/0700 To: 19SEP15/0700	INCIDENT OBJECTIVES ICS 202-CG
3. Objective(s) Ensure health and safety of the public and responders. Continue implementation of private well sampling and water deliveries. Establish strategy for impacted private wells. Continue coordination with Federal, State, Tribal and local stakeholders. Continue management of mine water discharge. Continue mine dump and portal stabilization. Assessment of sediment impacts. Identify incident end points. Implement alert and notification plan during mine site operations. Explore real time monitoring options. Continue water and sediment sampling along the Animas and San Juan Rivers. Evaluate need for delivery of feed for livestock. Assess, evaluate, document and remove non-potable water tanks in Navajo Nation.		
4. Operational Period Command Emphasis (Safety Message, Priorities, Key Decisions/Directions) Safety of responders and the public All visitors to the mine site are required to go through a safety briefing. See mine site safety plan. For incident personnel to access Southern Ute Tribal lands, they must be escorted by a Southern Ute Staff member. All sampling operations in Navajo Nation must be conducted with law enforcement escort. Ensure information flow between ICP and Stakeholders is transparent. Approved Site Safety Plan Located at: Gold Mine ICP		
5. Prepared by: (Planning Section Chief) Ms. Erin Lambie, PSC 		Date/Time 03SEP15/1530

1. Incident Name ICP Gold King	2. Operational Period (Date/Time) From: 05SEP15/0700 To: 19SEP15/0700	Command Direction ICS 202A-CG
3. Key Decisions and Procedures: Official name of the incident: Gold King Mine Release Incident ICP Location: 135 Burnett Dr, Ste 103, Durango, CO ICP Gold King will operate under a 14 day Incident Action Plan Letters with private well sampling results will be mailed to residents IC is ending outreach with private well owners outside the buffer.
